When the Clubs and Associations Were Founded

This list was compiled from our All the Nations pages <http://www.magiminiland.org/BigPicture/Nations.htm> and Book of Days pages <http://www.magiminiland.org/Days/Days.html>, plus material from Google and individual club websites. Where dates differed, we went with what the websites listed.

The basis for this list is a compilation of several hundred clubs gotten from books and magazines prior to about 1996. Most of those I had noted, for example, thusly: (p72) meaning that the earliest date I had for that example club was 1972, but it most likely was established before that year. We are in the process of going through that list line-by-line and seeing if there is a website or Facebook page for each club which gives a specific year date. Most do not, and at least half of the clubs on my list have no listing on Google at all. At some point we may put those clubs here in a second listing for the historical value and possibly to allow others to contact me with updates.
